Re: Asbestos Dump Site
 Morris County, New Jersey

Dear Ms. Barker:

This letter is to confirm your November 8, 1985 telephone conversation with Nigel Robinson of my staff, with regard to the inclusion of certain language in the site operations plan.

Mr. William Sawyer, the Environmental Protection Agency's (EPA) Attorney and Jim Mooreman, the Attorney representing National Gypsum Company, have tentatively agreed to include the following language in the site operations plan. "Should an immediate health hazard exists, National Gypsum and its agent will immediately notify EPA and the New Jersey Department of Environmental Protection (NJDEP) and shall take all reasonable steps, with the approval of EPA and NJDEP to mitigate the danger expeditiously."

Should you have any questions concerning the above, please contact Mr. Nigel Robinson, Project Officer at (212) 264-8674.

Sincerely yours,

Robert N. Ogg, P.E., Chief
 Site Investigation and Compliance Branch
